

**Correction to the directions for Pink Penguin's basket using the 13-Square foundation:**

Make two full copies of the 13-Square foundation (a total of 4 pages). Join the top and bottom pages of each set as you normally would. Then, overlap, to create the 13 by 18 grid. Trim off the unnecessary half of the foundation.

NOTE: If you made three sets of foundations, you would have enough to make two baskets (since the overlap uses only half the length of the foundation).
